

My leisure activities

Here is a small composition on somebody's favourite leisure activities. Read it and write about you.

I like walking because I exercise and I can relax. I like cooking because it is very creative and I learn about the culture of the different countries. I also like writing my diary and I like travelling but I don't have much time so I watch travel channels on tv.

A large rectangular area enclosed in a red border, containing 18 horizontal lines for writing.
